

Dear Livestock and Seed Programs:

Please do NOT permit irradiated food to be served in the National School Lunch Program. Irradiated food has not been proven safe to eat. It degrades the nutritional content of food, and research has revealed a wide range of health problems in laboratory animals that ate irradiated food. In addition, it merely masks faulty and inhumane meat processing. Parents deserve the right-to-know what their children are eating, but irradiated food served in schools is not required to be labeled. I strongly urge you to keep irradiated food out of school lunches.

Sincerely,

Dear Livestock and Seed Programs:

Please do NOT permit irradiated food to be served in the National School Lunch Program. Irradiated food has not been proven safe to eat. It degrades the nutritional content of food, and research has revealed a wide range of health problems in laboratory animals that ate irradiated food. In addition, it merely masks faulty and inhumane meat processing. Parents deserve the right-to-know what their children are eating, but irradiated food served in schools is not required to be labeled. I strongly urge you to keep irradiated food out of school lunches.

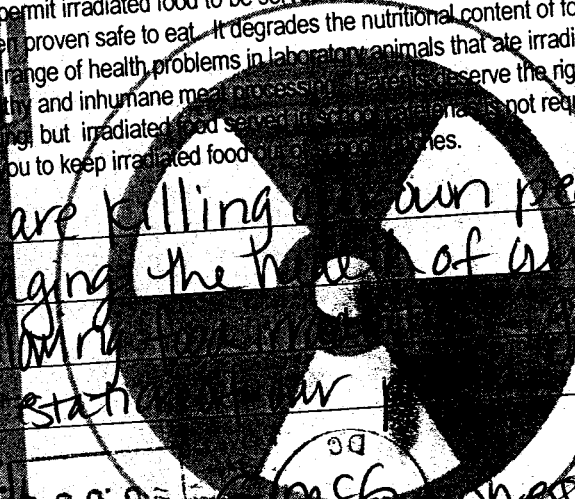

We are killing our own people and
damaging the health of our future
by allowing irradiated food in schools and
deforestation of our land. Please help us!

Sincerely,
